ULTRAVIOLET RAY STERILIZER "MULTI LIZER ML-100" Sale announcement

We are pleased to announce that we will launch the UV sterilizer "**MULTI RIZER ML-100**" in March. Delivery is scheduled from **May to June** around.

This product applies UV and is effective for killing/inactivating various bacteria and viruses. Two sterilization modes to choose from, depending on the environment. "**AIR STERILIZATION MODE**" can be used in manned environmental, the unit sterilizes the surrounding space by drawing in air and sterilizing the air by UV irradiation. "**IRRADIATION STERILIZATION MODE**" can be used in unmanned environmental, the unit sterilizes and surfaces by directly applying UV to the surrounding area. It can be used for a wide range of applications such as doctor's office, waiting rooms, and patient rooms. If you need more information, Please enter your ID and your password and log in.
